Irma United Church Observes 41st Anniversary

The Irma United Church celebrated its 41st anniversary on Nov. 18 and 19.

On the Sunday evening, the Rev. Glazer of Wainwright was guest speaker and told of God's plan that each and every Christian should be a channel for His power.

The ladies choir gave two anthems, "I Was Glad" and "The Church of the Living God." This fine service was well attended.

On Monday evening a record crowd of over 200 persons enjoyed the delicious chicken supper prepared and served by the ladies. After supper the body of the church was filled to overflowing for the following program:

Rev. H. W. Inglis was in the chair and after an opening prayer, two hymns were sung by the gathering and an anthem by the choir. Mrs. Glasgow and Della Symington gave a piano duet and encore. Mr. Inglis then introduced Dr. Knight, an agricultural Missionary from Africa who had a fine assortment of African curios and beautiful colored slides to illustrate his lecture.

Dr. Knight was young and alert and given-up and children alike gave him their full attention. His program among the "Africans" seemed to be wonderfully balanced. It dealt with soil conservation, the nutritional values of properly prepared foods, and the improvement of livestock in a land where cows give no more than one or at best two cups of milk and pigs take two years to grow big enough for market. But as a Christian Missionary, he taught that one can work with God in applying up to date agricultural methods and that the light that is dawning in Africa is the light of the future.

Despite the many difficulties he has encountered in his work abroad, Dr. Knight had a word of sympathy for Canadian farmers who stood like him in the snow. But after hearing his lecture we would still rather farm in Alberta than Africa.

Mr. Leigh Currie arrived home last week-end after a month's stay in Edmonton at the home of his daughter, Mrs. E. A. Cox. We are all pleased to see Mrs. J. A. Fleming home.

The W.I. ladies held a very successful bazaar and tea last Saturday. Many thanks to all who helped make this such a success.

There will be an annual meeting of the FUA at Orindale school on Monday, November 26, at 8 p.m. All members are asked to attend.

There will be a dance at Albert school on Friday, December 7. This dance is in aid of the Christmas Tree Fund. Everybody welcome.

Funeral Services Held For J. A. Fleming

Mr. Joseph Alfred Fleming was born February 3, 1878, in Killard Newmarket, County Kildare, Northern Ireland. He first came to this country in 1905 and worked as a carpenter at Toronto until coming out west in 1910 where he settled on a farm in the Alberta district north of Irma. For a good number of years, Mr. Fleming operated a local post office at his home. This was known as the Zolodovs post office. In this work he came to meet his neighbors very often and all new-comers speedily made his acquaintance when calling for or posting mail. Each week Mr. Fleming made the long trip to Irma and back by team. The road in those days was very indirect and he had to pass through the Orindale district on these journeys with the mail.

Only One Way! There is no magical chemical* for removing excess moisture from stored grain. As the only way to prevent spoilage and ensure the keeping quality of grain is to store it at a sufficiently low moisture content to prevent mold, insect and rodent infestation and heating. On the farm, it is possible to lower the moisture content of damp grain by any one of the following five methods:

- (1) Delaying harvest until the grain is dry.
- (2) Drying with dry grain.
- (3) Drying with well-aerated grain in granaries or storage bins.
- (4) Moving the grain frequently from one bin to another.
- (5) Using artificial heat.

The first four methods, however, are useful only when grain contains a slight excess of moisture. Remember that grain with a moisture content of storage wheat, oats and barley is 14%; for flaxseed it is 11%.

What We Repeat: There is no chemical way to remove moisture from wet grain in storage. Don't fail to inspect your stored grain frequently for mold, insects and rodents. If a particular grain storage problem, talk it over with your Agricultural Representative, or write for advice to the Agricultural Extension and Mental Station, University of

Ladies from the United Church, the Alliance Tabernacle and the Anglican Church canvassed recently for funds for the British and Foreign Bible Society and realized the sum of \$101.30. \$79.00 of this was raised in the village alone. Also the above monies do not include generous sums raised in the Albert district and the Sharon district.

Mr. and Mrs. Wm. Herder and daughter of Daysland spent last week-end at Irma, the guests of Mr. and Mrs. S. M. Brown.
